

UNDERSTANDING MEDICARE PRESCRIPTION DRUG COVERAGE

Every person with Medicare is eligible for Medicare prescription drug coverage.

Some people who need your help may understand very little about the new Medicare prescription drug coverage. This folder contains a **CD, brochures, and an article** that give people with Medicare, along with their families and friends, **basic information about the new coverage**. You can refer to this information to help you explain the new coverage.

You can view, print, or order additional publications online at www.medicare.gov or by calling 1-800-MEDICARE (1-800-633-4227).

August 2005

Everyone with Medicare is eligible.
